

EVALUATION CRITERIA – Research project submissions – 2008

Names of researchers:

Titles:

Evaluation on a scale of 1 to 6 (where 5 is the highest score)

	1	2	3	4	5	6
						No opinion
Relevance of project in relation to Centre's objectives (20%)						
Multidisciplinarity and proposed exchanges (20%)						
Possibility of this project leading to funding application to outside agency (20%)						
Originality and potential contribution of the project (25%)						
Proposed methodologies (15%)						
*Support or collaboration of strategic partners (CSST, public health) and scientific partners (IRSST)						
* Student or Fellow associated to the project						
** Collaboration with other centers not listed above, national and/or international, in particular with researchers or professionals from developing countries						
Overall evaluation						

Comments:

* Two points will be added for either of the following, for a maximum of four points:

- 1) Support or collaboration of strategic partners (CSST, public health) or scientific partners (IRSST)
- 2) Student or fellow associated with project (whether receiving scholarship from the Centre or not)

** One point will be added for collaboration with another group apart from those listed above and two points will be added if researchers or health professionals are from developing countries.
